EDUCATION

Techno India University, Kolkata, 2023-2027 B.Tech in Computer Science and Engineering	CGPA: 8.38 / 10
Labanhrad Vidyapith, Kolkata, 2023 Higher Secondary Education (Science) — Bengali, English, Mathematics, Physics, Chemistry, Biology	80.2%
Begum Rokeya Smriti Balika Vidyalaya, Kolkata, 2021 Secondary Education, WBBSE — Bengali, English, Mathematics, Life Science, Physical Science, History, Geography	75%

TECHNICAL SKILLS

Languages: Python, C/C++, Java, Bash, HTML/CSS/JS
Frameworks & Libraries: NumPy, Pandas, Scikit-learn, Seaborn, Matplotlib, Plotly, React, Tailwind CSS
Backend & Databases: FastAPI, SQLAlchemy, Uvicorn, Express.js, Node.js, JWT Authentication, Data Validation, MySQL
Tools & Platforms: Git/GitHub, VS Code, Vite, Jupyter Notebook, Figma, Vercel, Excel, GNOME
Embedded & IoT: ESP32-S3, L298N Motor Driver, IR Sensors, PWM Control, PlatformIO, Arduino IDE
Soft Skills: Project Management, UI/UX Design, Communication, Teamwork, Web Development

WORK EXPERIENCE

Data Science Intern — CodeAlpha Applied core data science concepts through hands-on projects, building practical, future-ready analytical skills.	Feb 2026
AI/ML Project-Based Intern — IBM (PBEL) Completed IBM's Project-Based Experiential Learning virtual internship, applying AI/ML concepts to hands-on, industry-relevant projects.	Jan 2026
Java Programming Intern — CodSoft Gained hands-on experience developing Java-based solutions while strengthening core programming and object-oriented concepts.	Dec 2025
Professional Development Workshop — e133 & Tata Consultancy Services (TCS) Collaborated on corporate communication and teamwork exercises; strengthened critical thinking and problem-solving through structured, hands-on activities.	2024
Self-Initiated Projects — DSA & Linux Programming Implemented core data structures (arrays, linked lists, stacks, queues, trees) and algorithms (sorting, searching, graph traversal) in C++; developed and optimized scripts in Linux to improve system-level efficiency.	Aug 2024

PROJECTS

Fraud Detection App (Python, ML) Developed a real-time fraud detection system using a decision-tree classifier, achieving 94% accuracy through feature engineering and EDA; handled imbalanced and missing data, evaluating performance via accuracy, precision, recall, and F1-score.	Mar 2026
Unemployment Analysis During COVID-19 (Python, EDA) Conducted exploratory analysis of unemployment trends before, during, and after COVID-19 using NumPy, Pandas, Matplotlib, and Seaborn; visualized regional disparities and pandemic-driven spikes through charts and heatmaps.	Jan 2026
Peer-to-Peer File Sharing (Java) Developed a Java Swing-based file-sharing application using socket programming, event handling, multithreading, and file I/O within a client-server architecture for efficient, user-friendly peer-to-peer transfers.	Dec 2025
Employee Salary Prediction (Python, Scikit-learn) Built a regression-based ML model to predict employee salaries from experience, location, and job rate; handled missing values and categorical encoding to achieve 83% accuracy.	Sep 2025
Dyslexia Assist - Access ED (Smart India Hackathon) Built a full-stack adaptive learning platform (React, Tailwind CSS, Node.js, Express.js, Python, Flask, Database, Vercel) with gamified exercises and assistive tools, plus community features that help individuals with dyslexia build confidence and connection.	Sep 2025
IoT Saree Folding & Pressing Machine (ESP32-S3, C++, L298N Motor Driver, IR Sensors, PlatformIO, PWM) Designed and prototyped a compact, automated saree-folding machine for small textile retailers using PWM-synchronized motor control and real-time IR sensor feedback; resolved position-drift issues through precision stopping and timing calibration, optimizing for low-cost, minimal-intervention deployment.	

CERTIFICATIONS

Machine Learning — IBM ETL processes and big data fundamentals; data gathering, identification, and cleaning for analysis.	Jan 2026
Java Programming — CodeSoft Core programming syntax and OOP concepts; procedural programming paradigms and logic-building.	Jan 2026
Professional Development Workshop — Certificate of Participation, e133 & TCS	Sep 2024
Data Science — Billion-AI Comprehensive data lifecycle and stages of analysis; applications for optimizing data efficiency and accuracy.	Mar 2024

ADDITIONAL INFORMATION

Languages: Bengali (Native), English (Professional), Hindi (Conversational)
Core Subjects: Data Structures & Algorithms, OOP, DBMS, Microprocessors & Microcontrollers, Operating Systems, Computer Networks, Discrete Mathematics, Probability
Interests: IoT Automation, Linux Internals, Full-Stack Development, AI/ML, Data Science, Data Analysis, DevOps
